Skills

Languages \ German (native) · English (fluent)
Mathematics \ Statistics · Linear Algebra · Calculus · Probability
Informatics \ Deep Learning · Networking · Operating Systems · Infrastructure Architecture · System Design
Programming Languages \ Rust · Python · Java · Kotlin · C# (limited) · C++ · JavaScript · TypeScript · PHP (limited)
Biology \ Genomics · Biochemistry · Sequencing · Analysis
Agents \ Cursor · OpenHuman · MCP · OpenRouter
Soft Skills \ Remarkable Ability to Learn Quickly and Self-Driven · Strong Problem-Solving Skills · Excellent Communication and Collaboration Skills · Ability to Work Independently

Interests

Sports \ SCUBA Diving · Strength Training · Shooting Sports
Computer \ Gaming · Programming · Content Creation
Other \ Cooking · Traveling · Skill Exploration

Summary

Dedicated Software Engineer and passionate hobby programmer seeking challenging opportunities to build impactful software. Strong focus on writing efficient, safe, and correct code, backed by self-study and expanding academic expertise in data analysis and biology.

Experience

current – 2024 Jun.
Software Engineer — opta data Österreich GmbH
Systems Design · Domain Driven · Scrum Collaboration
Linz, Upper Austria

- One of three core developers, designing and implementing a diabetes order platform from scratch
- Involved in setting up and planning of core software system deprecation and implementation of new platform
- Core component establishment such as authorization, observability and analytics

2022 Aug. – 2022 Jul.
Internship — opta data Österreich GmbH
Data Analysis · Data Visualization · Report Generation · Deep Learning
Linz, Upper Austria

- Developed a reporting tool for in-house AI text extraction model drift detection in production
- Trained autoencoder based on above model's architecture for document classification
- Presented findings to stakeholders

Education

current – 2025
B.Sc. in Medical- & Bioinformatics — FH Oberösterreich
Hagenberg, Upper Austria

2023 – 2018
A-Levels in Medical Informatics — Higher Technical College Grieskirchen
Grieskirchen, Upper Austria

Thesis: Synde - Document Dataset Synthesizer

Certifications

Dec. 14 – Dec. 16
FILL Hackathon 2022

- Won in the software engineering category by developing realtime order and delivery platform for a small 3d printing assembly.

2023
Project Award - HTL Leonding — Credential

- Diploma Thesis Award for the best overall project in innovation.

2023
Jugend Innovativ — Credential

- 3rd place in Austria wide Diploma Thesis Award for category "ICT & Digital".

Achievements

Känguru der Mathematik
Austrian Math Kangaroo; Competition in mathematics for students aged 10-14.

2015 **8th place** – Upper Austria
2016 **3rd place** – Upper Austria
2016 **9th place** – Austria

Biber der Informatik
Austrian Computer Science Competition for students aged 10-14.

2016 **2nd place** – Austria

School Position

2021 Deputy School Representative
2021 Deputy Department Representative
