Summary

Dedicated Software Engineer and passionate hobby programmer seeking challenging opportunities to build impactful software. Strong focus on writing efficient, safe, and correct code, backed by self-study and expanding academic expertise in data analysis and biology.

Education

2025 – current

[FH Oberösterreich](#)

B.Sc. Medical- &
Bioinformatics
Bioinformatics track
Hagenberg, Austria

2018 – 2023

[Higher Technical
College Grieskirchen](#)

A-Levels Medical Informatics
Thesis Synde - Document
Dataset Synthesizer
Grieskirchen, Austria

Skills

Languages

German (native) • English
(fluent)

Mathematics

Statistics • Linear Algebra •
Calculus • Probability

Informatics

Deep Learning • Networking •
Operating Systems •
Infrastructure Architecture •
System Design

Programming Languages

Rust • Python • Java • Kotlin •
C# (limited) • C++ • JavaScript
• TypeScript • PHP (limited)

Tim Peko

Software Engineer | Bioinformatics Student

Experience

Software Engineer @ [opta data Österreich GmbH](#)

2024 Jun. – current

- One of three core developers, designing and implementing a diabetes order platform from scratch
- Involved in setting up and planning of core software system deprecation and implementation of new platform
- Core component establishment such as authorization, observability and analytics

Systems Design • Domain Driven • Scrum Collaboration

Internship @ [opta data Österreich GmbH](#)

2022 Jul. – 2022 Aug.

- Developed a reporting tool for in-house AI text extraction model drift detection in production
- Trained autoencoder based on above model's architecture for document classification
- Presented findings to stakeholders

Data Analysis • Data Visualization • Report Generation • Deep Learning

Certifications

[FILL Hackathon 2022](#)

2022 (Dec. 14 – Dec. 16)

- Won in the software engineering category by developing realtime order and delivery platform for a small 3d printing assembly.

[Project Award - HTL Leonding – Credential](#)

2023

- Diploma Thesis Award for the best overall project in innovation.

[Jugend Innovativ – Credential](#)

2023

- 3rd place in Austria wide Diploma Thesis Award for category "ICT & Digital".

Achievements

[Känguru der Mathematik](#)

Austrian Math Kangaroo; Competition in mathematics for students aged 10-14.

2016 **3rd place** – Upper Austria

9th place – Austria

2015 **8th place** – Upper Austria

[Biber der Informatik](#)

Austrian Computer Science Competition for students aged 10-14.

2016 **2nd place** – Austria

School Position

2021 Deputy School Representative
Deputy Department Representative

Biology

Genomics • Biochemistry •
Sequencing • Analysis

Agents

Cursor • OpenHuman • MCP •
OpenRouter

Soft Skills

Remarkable Ability to Learn
Quickly and Self-Driven •
Strong Problem-Solving Skills •
Excellent Communication and
Collaboration Skills • Ability to
Work Independently
